VISION

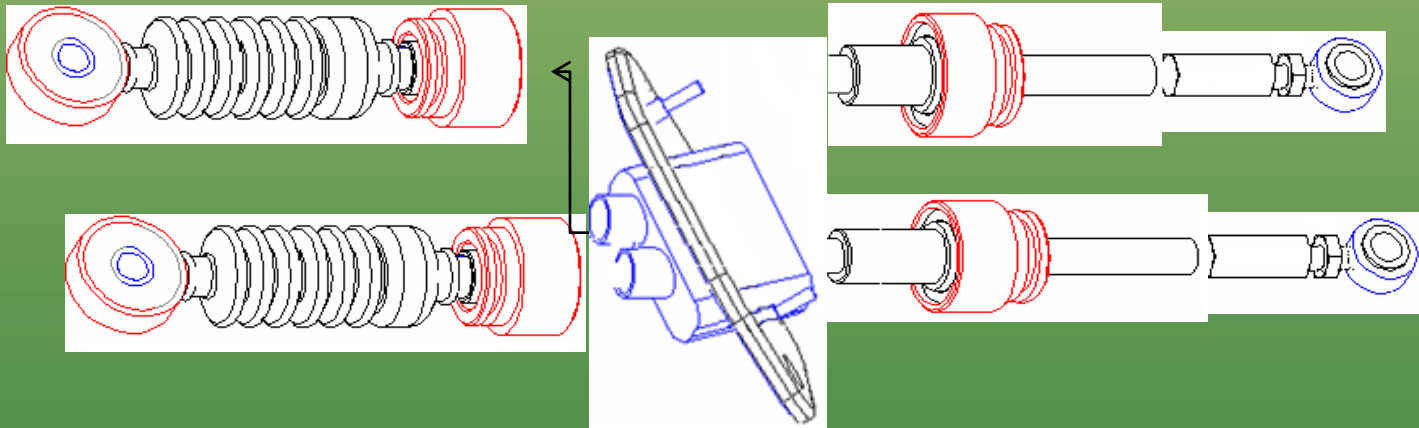

To become the main provider of parts for both the automotive and industrial sector within the American continent, by means of quality, innovation and a wide product portfolio, in order to give permanence, opportunities and social responsibility values to the generations to come.

MISSION

To manufacture and commercialize metallic and plastic parts and cables for the automotive, hardware and industrial sectors, supported by the continuous development of products and processes in order to exceed both customers and suppliers' expectations; so that be able to assure both permanence and competitiveness in the market for its workers and shareholders' benefit.

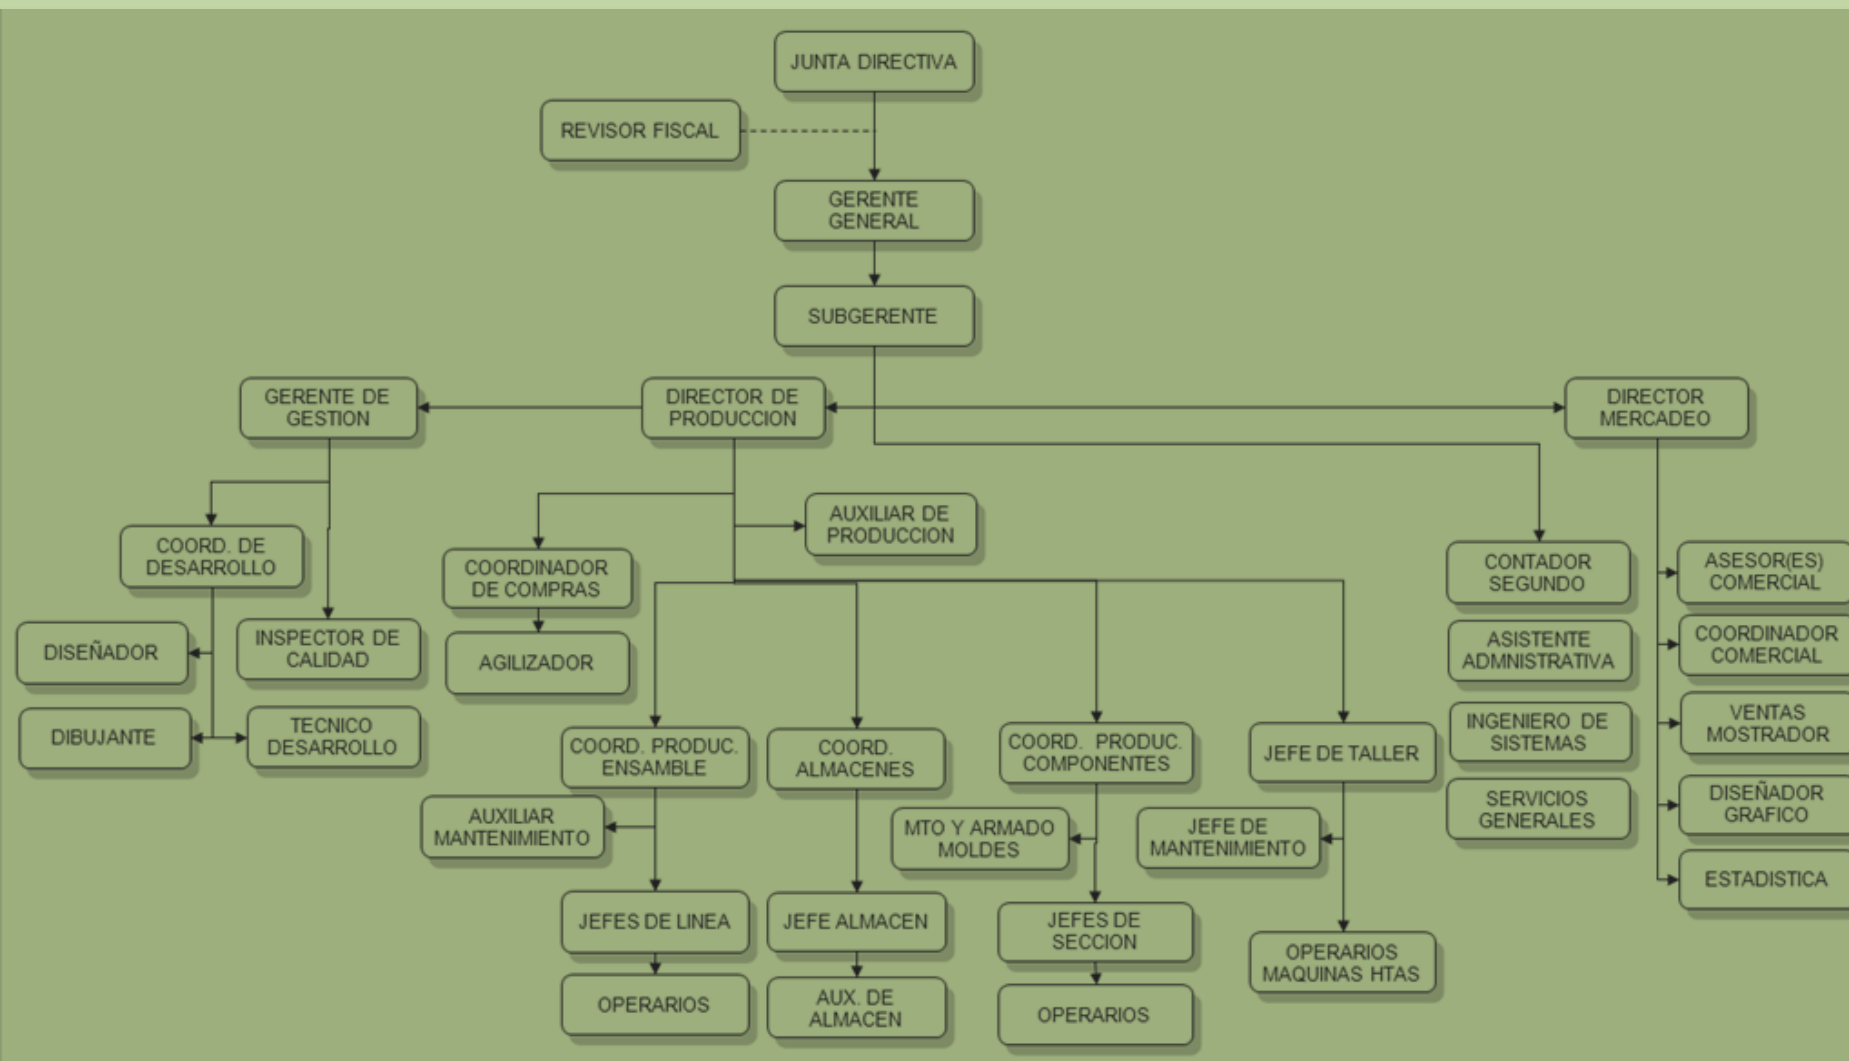

HISTORY

**Navas Carlos & Compañía Limitada,
Navcar Ltda.**

Those are the initials the company is commercially recognized for. It was registered at the Commerce Chamber of Bogotá C.D. by Mr. Carlos Humberto Navas Rincón on the 23rd. of February, 1984, which is the official date when they started to work. It currently has two branches, the principal one located in Bogotá on Carrera 16 No 9-33 and the other one in a town called Tocancipá, which is forty minutes far from the capital city. It started working with a group of ten people; seven in the production area and the other three in the administrative one. Nowadays the staff is composed by more than 70 people who work at a total area of more than 2.500 square meters.

From October 2010, it changed its name to **NAVCAR S.A.S.**

ORGANIGRAMA
