

Bulletproof Protected Combat Post

"AMI" Bulletproof Combat Post

- Bulletproof lookout post resistant to assault from light firearms requiring only a flat surface for installation
- Transported by air, sea or land.
- Offers optimum living conditions for three, fully equipped soldiers.
- Improved acoustic features reduce firing noise inside the post.
- Douse convex-shaped roof for continuous release of overhead and airborne payloads and increased ventilation.
- Quickly converts it into a mobile post.
- Optional bulletproof staircase.
- Bulletproof lookout windows with reinforced glass offering 360 degree visibility.
- Shooting slits in the structures outer wall operated from inside the booth.
- The structure may be quickly erected on top of a tower or house.
- Foldable shelving for storage of equipment, ammunition, and supplies.
- Cheaper than concrete towers and does not require use of heavy cranes and expensive foundations.
