

Sasco Gulf General Trading And Contracting Company W.L.L

Building the future

About us

Our company is active in Kuwait construction market since 2002, our operations were particularly in natural stone facades , specialized protection and insulation works. Since establishment and in light of the growing market demand for general construction , our professional team expanded the operations to the area of turnkey high quality construction works.

We are now a Main construction company registered with many organizations and government authorities:

- Ministry of Commerce
- Kuwait Chamber of Commerce & Industry
- The Central Tender Committee- Grade 4
- The Environmental Public Authority
- KOC and KNPC

Sasco has gained the respect of the market through successful execution of quality projects to client's satisfaction. The company has developed professional and friendly relations with clients / owners in Kuwait market.

Sasco currently operates through two main divisions : Sasco construction and Sasco Commercial

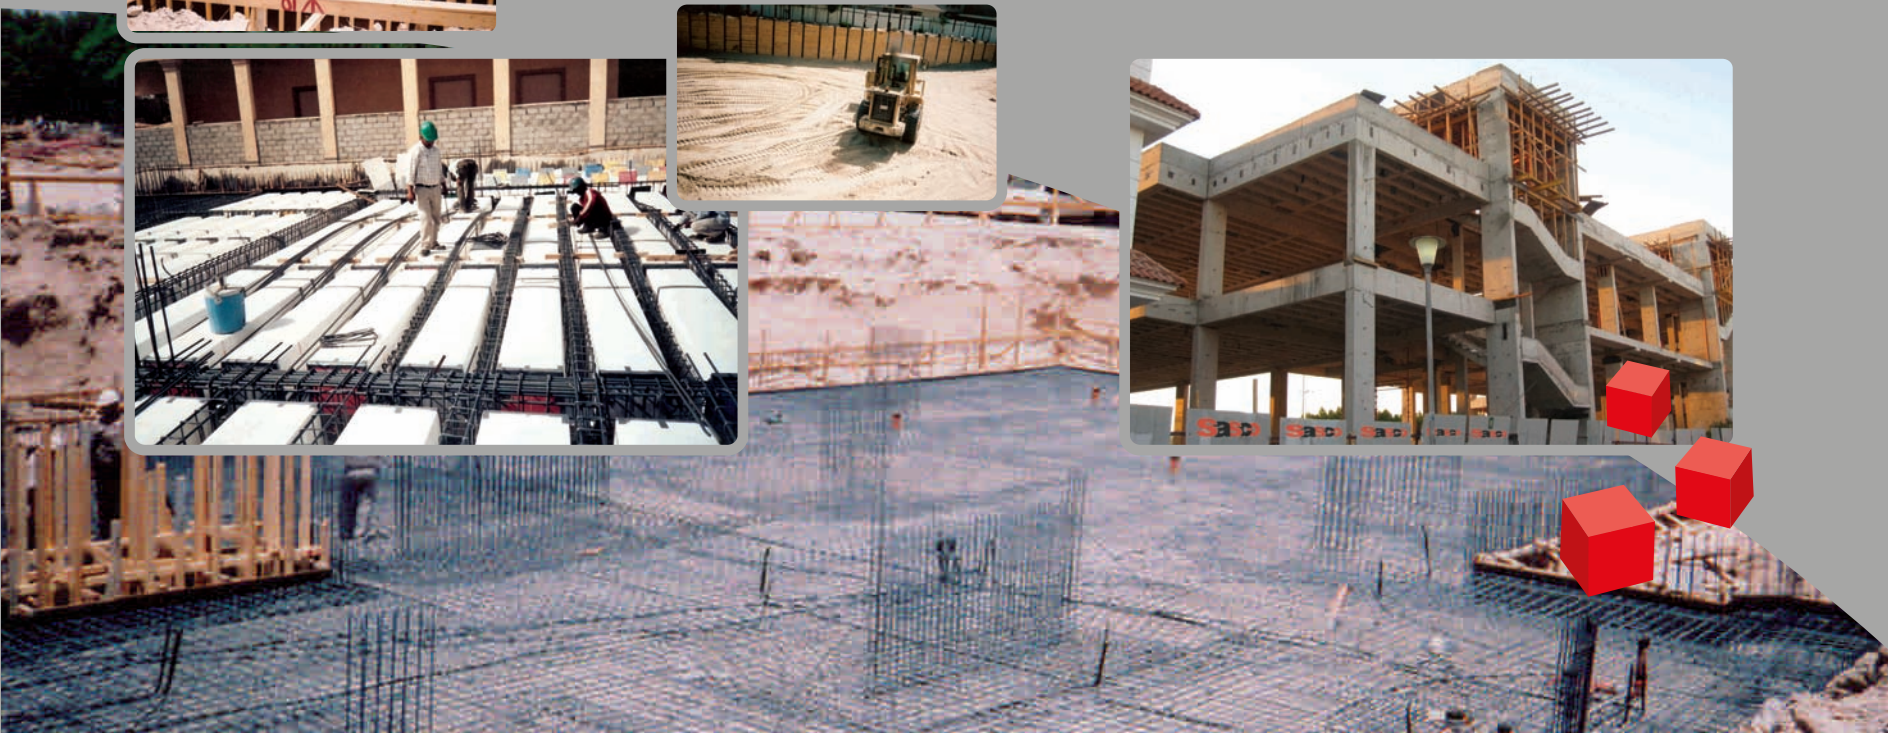

Sasco Construction

Sasco construction division targets medium size commercial and high end residential construction projects. Our professional teams and management are particularly keen to provide our clients with unique and excellent services from the early stages of design throughout the building process to successful completion of the construction works.

We strongly believe in our mission to provide our clients with our quality services and have successfully demonstrated the same in Kuwait construction industry, and shall continue to strive to further our targets.

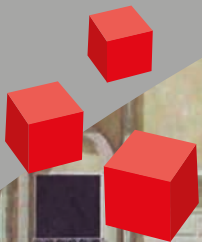

Our operations are in a wide range of construction works and activities of which the following are:

- General Construction works of medium size, high quality works.
- Architectural, interior and landscape solutions design concepts presented in latest computerized 3D graphics and animations.
- Professional value engineering analysis.
- Professional selection of appropriate concepts/solutions to clients.
- Implementing interiors works.
- Implementing landscaping solutions.
- Supply office furniture.
- Supply quality preserved plants.
- Supply and fix insulation material.
- Supply and apply protection material for quality natural stones.

Sasco Construction

Since establishment we have set our objectives clear to differentiate ourselves in Kuwait construction industry through our high quality standards. Our management and resources are readily available to promptly respond and follow up your enquiries and start immediately with thorough understanding of your needs and requirements. Our professional Engineers will promptly assume responsibility of the process and take you through the Engineering stage, planning the time, quality requirements and specifications, none the less the costing and cost control, and provide you with the necessary assistance to achieve your targets from concept to design through to completion and maintenance.

Sasco Commercial

Sasco Commercial division specialises in trading and execution. The division is involved in three main fields through partnership and agency agreements with: Zanto, Pseudofix and Swiss Guard.

1. ZANTO

Zanto introduces international medium to large size, high quality manufacturers and traders of Corporate Furniture to the Middle East .

Zanto represents several Spanish companies ranging from office furniture to hotel full fledged integrated solutions. Some of the brands represented are Aridi, Ofita, JG Group and Martinez Otero, those brands are used internationally by prestigious companies such as L'Oreal (France) Coca Cola (Malaysia) , Louis Vuitton (Paris) , Mercedes Benz (Dubai & Qatar) , Economic Department of Abu Dhabi (UAE) , Australian college (Kuwait) , Airport (Kuwait) commercial bank (Kuwait) and many others.

2. Pseudofix

Pseudofix is an international revolutionary unique brand to the market Based in Gravenzande, the Netherlands, the brand has been established in 1993 & is specialized in preserved plants and flowers and since then, the Pseudofix name has been synonymous with the preserved plants for the purpose of decoration and accessories. Its presence in the Kuwaiti market was well received due to the country harsh climate conditions and the fact that they require minimum care and require no watering. Pseudofix provides a variety of products such as preserved whole plants and plant parts, flowers, silk plants. Pseudofix offers also a range of services concept design, detailed flower styling, landscape design and execution.

This product is ideal for airports, restaurants, hotels, shopping malls and homes adding attractive and vital atmosphere to all places.

The plants are placed in soil or in suitable decorative pots and are considered durable work of art meant to be seen and admired. You are welcome to visit our Showroom, evergreen, located in The Avenues.

Pseudofix products have decorated prestigious international projects such as Amsterdam Airport and local projects such as the Civil Service headquarters in Kuwait.

3. Swiss Guard

The brand offers a complete range of silicon free Fluorinated products to protect internal and external construction material surfaces from degradation and exposure to local weather factors such as pollution, the action of salts or chemicals and human interference e.g. graffiti.

Sasco staff is specifically trained by Soft Applications-Switzerland in the application of their products. We aim to offer the market not only top quality products but also the top quality in application of those products.

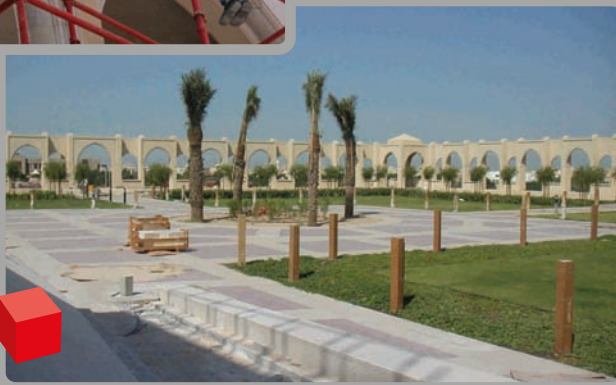

Soft Application floors and facades protective treatments products are suitable for the following materials:

- Natural or reconstituted stones
- Concrete
- Terracotta
- Mineral roughcast

The protective treatment can be safely applied on:

- Heritage and cultural monuments
- Civil engineering works : highways, bridges, walls
- Any facade exposed to pollution
- New or renovated buildings

Numerous projects all over the world have been protected by swiss guard products. In Kuwait , the medical college in Jabriyah, Alkout Mall, 360 Mall are but few of our projects locally.
