OUR COMPANY

Dinacol S.A. is, mainly, a service organization , with core competences in the **Construction, Repair and Assembly** area, that since 28 years ago is serving the industrial, civil and naval sectors in Colombia.

We provide a wide spectrum of services tailored around our client's requirements, and with our certified **Integrated Management System**, we can guarantee that we will meet and even exceed any client's expectations in quality and efficiency aspects, assuring the security, occupational health and environmental impacts.

Our human resources, facilities and machinery allow us to service our client's needs, on field jobs, prefabrication, assemblies, etc. guaranteeing an efficient and quick job, anywhere and anytime the client requires.

LOCATION

We count with our facilities located at the **Ceballos Industrial Zone** at Cartagena, only 5 minutes away from Mamonal, where main ports / refinery / dry-docks are located.

Also, in joint venture we count with a dock for vessel's repair and berth, at the Cartagena Bay in **Mamonal**.

BUSINESS UNITS

INDUSTRIAL SECTOR

- Platforms and ladders
- Metallic structures
- Hoppers and bins
- Tanks
- Industry equipments
- Piping
- Structures assembly and installation.
- Silos
- Pressure and boiler tanks
(Currently on ASME Certification process)
- Duct work
- Blasting and coating protection.

BUSINESS UNITS

NAVAL SECTOR

- New buildings and repair of all type of ocean and river navigation vessels.
- Steel fabrication and replacement, piping, container guides, etc.
- Blasting (Sand / Grid) and coating protection.

BUSINESS UNITS

CIVIL SECTOR

- Rigid and flexible pavements
- Foundations, stuffed laying, etc.
- Buildings
- Roofs
- Multiple buildings
- Ducts
- Bridges
- Hangars
- Blasting (Sand / Grid) and coating protection.

FACILITIES, HUMAN RESOURCES AND MACHINERY

We offer our construction and repair services at our **5.500 m²** facilities.

Here we count with the following machinery:

- Hydraulic press brake on 3 Mts to 1" (DURMA)
- Hydraulic 3 rolls bending machine of 2½" capacity and 1" on hard steels (SERTOM)
- Overhead traveling crane of 10 MT capacity (ABUS)
- Mechanized plasma cutting table (KOYKE / HYPER THEM)
- Blast and coating room (TITAN)
- Telescopic forklift (LULL)
- Automatic and semiautomatic welding machines for all the processes (LINCOLN / MILLER)
- Quality control equipments (Ultrasound (GE USM 35X), Magnetic particles, Dynamometer (100 MT – MWT), UTM equipments (Krautkramer), Coating inspections (Elcometer), Gas Free (Biosystem), etc.)

FACILITIES, HUMAN RESOURCES AND MACHINERY

Our personnel counts with all the capacities required on every area in order to guarantee the quality of our services:

- Mechanical engineers certified Welding Construction Inspectors - ACOSEND
- Certified engineers Level I and II on NDT.
- Certified coating and corrosion inspectors - NACE.
- Civil engineers and naval architects with more than 20 years of experience on the market.
- Certified welders by LR, BV and / or GL.

OTHER SERVICES

NON DESTRUCTIVE TESTS

Visual Inspection
Penetrant liquids
Magnetic particles
Ultrasound
Coating NDT (thickness, holidays, etc.)

OWNER REPRESENTATIONS

Design verifications and control
Quality assurance
Quality control and NDT
Personnel qualifications and procedures
Supplies inspection
Security supervision
Jobs cronogram control
Quality control plans' design and implementation

LIFTING AND MOORING APPLIANCES INSPECTION AND CERTIFICATION

Lifting appliances test
Structural and operational surveys
Lifeboat and davit annual and quinquenal survey
Bollard pull test

RECENT JOBS

- Design, construction and pilotage of **floating dock** from two barges (SPRC)
- Design, construction and pavement of a **warehouse** on metallic structure (RBR S.A.)
- Design and new building of **two(2) tugs** of 550 HP (SPRC / Intertug S.A.)
- Metallic pipe **structure** construction (ADCOL S.A.)
- **Container's guide repair** jobs at MV Algol, Hansa Greifswald, Aegir, etc. (SPRC / Panmax Marine)
- Vessel's **rudder** new building at our facilities (Tradewind Tankers)
- Repowering **tugs** Carex y Hercules. (Intertug S.A. / OTM)
- Design **floating dock** approved by LR. (Navtech S.A.)
- Owner's representation and NDT at water ducts **platforms** project, storage tanks platforms, etc. (Refinería Valero Aruba)

MAIN CLIENTS

NATIONALS

- Sociedad Portuaria Regional de Cartagena
