

Company Profile

Company Profile

Environics Oy provides complete CBRN security solutions from early warning to consequence management. The company's detectors are being used to monitor the safety and security by both the civil and military agencies. Environics also provides CBRN cleaning and decontamination products for crisis and consequence management.

From a single chemical detector to a complete nationwide CBRN monitoring system, Environics provides a flexible and effective solution to enhance the preparedness and ability to respond to a CBRN threat.

Experienced, solid company

Environics has a more than 20 years of experience in CBRN field. The development of technology for detection instruments dates back to early 1980's when the R&D was started within Finnish Defence forces. The company was established in 1987.

Environics works globally and it has branch offices in China and in the Middle East and to strengthen the markets in north and south America Environics USA was founded in 2002. In total the company has manufactured and delivered over 11000 CWA detectors and hundreds of integrated CBRN monitoring systems to over 40 countries.

Environics Oy is a part of the Finnish TEMET Group. Apart from Environics the TEMET Group consists of TEMET Oy, which is a brand name in shelter systems and TVI Vision Oy, which expertise is in the field of line scan imagery. The group synergy benefits both the companies and the customer. The combination of experience from each company allows us to create more flexible, cost effective and high performing solutions.

The Quality Management System of Environics Oy has been certified against ISO9001:2000 and AQAP 2110 requirements.

CBRN Detection and Analysis

Chemical Detection and Analysis

- ChemPro®100 Handheld Chemical Detector
 - ChemPro®100 Radiation Detector Module
 - ChemPro® Reader Module (for BWA rapid tests)
- M90-D1-C CWA Detector
- ID100™ Portable FTIR Gas Analyzer

Biological Detection

- ENVI Assay System™ Gold (ricin toxin, SEB and botulinum toxin)
- ENVI Assay System™ FL (ricin toxin, botulinum toxin, anthrax and pox)
- Bio100 – Early Warning System™ Bioaerosol detector for CBRN detection systems
- Bio200 – BioAlarm System™ High performance alarm system for bioaerosol detection

Systems and Complete Turn-key Solutions

EnviScreen™ CBRN Monitoring Systems

- Large scale detection systems (e.g city or nationwide detection systems)
- Buildings and airports
- Shelters, subways and underground facilities
- Detection system for naval applications
- Industrial facilities

Reconnaissance Vehicle Systems

- Platform Independent
- Detects and Analyzes the threats
- Versatile communication to the control centers
- CBRN filtered
- Sample collection systems for laboratory analysis

Decontamination Systems

- Vehicle and equipment decontamination
- Personnel decontamination showers
- Patient decontamination lines
- Decontamination emulsions

Environics' Technology

Is responsive and reliable in the field

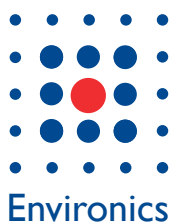

Has demonstrated ultra low life cycle costs

Operates continuously in real time

Adapts to the customer's needs
