

Mul-T-Lock Integrator® Platform

Mul-T-Lock's Integrator® platform, one generation ahead of the standard 7X7, introduces several advantageous features:

- ▶ A unique, high-precision 7-pin tumbler mechanism
- ▶ A patented key blank with a copy-protected oval cut, available in 3 different configurations: Internal, External and Twin
- ▶ Special launcher pins inserted into relevant cylinder plug chambers, corresponding to the key's oval cut

Thanks to its improved design, the robust Integrator platform offers enhanced tamper resistance, a range of keyed alike and keyed different options, and flexible master keying possibilities.

Key limitation is ensured by the key and key blank, supplied together with a coded Mul-T-Lock key card in every Integrator package. Additional keys may be cut by authorized Mul-T-Lock dealers, upon presentation of the key card – in accordance with Mul-T-Lock's official key cutting procedures.
