

Meets military and security requirements:

- Easily Assembled and Dismantled.
- Easy to Transport – The Light weight Features enables transport by Trucks, Crane or helicopter.
- 360 degree Observation.
- Easy to camouflage.
- Reinforced security glass - Transparent reinforced floor available.
- Diminished glare - Tinted glass and shading reduce glare.
- Bullet Proof Protection Upgrading features.

Cost efficiency:

- High quality resistant to harsh field conditions and to long-term corrosion. The galvanized steel ensures resistance to any conditions.

Optional Features:

- Insulated sheet metal.
- Reinforced polyester, with or without insulation.
- Bulletproof towers with cabins lined or reverted with particularly lightweight composite materials.
- All structures may be dismantled into interchangeable basic elements (walls and legs) and are supplied in 'kit' form or assembled including the accessories mentioned above.
