

## Harbours and sheltered waters

NorLense manufacture a wide variety of oil containment boom for use in harbours and sheltered waters. These types of booms are manufactured with a freeboard containing expanded polystyrene. Solid flotation means no need for air filling during deployment. Solid flotation booms are easy to handle and store.

The containment booms are delivered in 25 m long sections. These sections can easily be connected to required length depending on the situation. These booms can be delivered in bags, cages or containers.

Model	Freeboard	Skirt	Total height
NO-20-F	20 cm	35 cm	55 cm
NO-35-F	35 cm	50 cm	85 cm
NO-50-F	50 cm	64 cm	114 cm
